

Rowan College of South Jersey & Rowan College of Burlington County
CYBERSECURITY SYMPOSIUM 2026

Empowering the Next Generation of Cybersecurity Leaders

**OCT
29**

Cumberland Campus

3322 College Drive
Vineland, NJ 08360

9:00 a.m. – 1:00 p.m.

Explore the Future of Cybersecurity

What does it take to protect our digital world?

Join cybersecurity experts from higher education, government, and industry for an engaging half-day symposium exploring the technologies, challenges, and career opportunities shaping the future of cybersecurity.

Featured Topics

- Network Security
- Artificial Intelligence & Cybersecurity
- Firewall Management
- Data Encryption & Protection

Help prepare the next generation to protect our digital future.

Scan the QR code to register.

Program agenda, speakers and activities are subject to change.

Discover. Learn. Connect.

Attendees will:

- Hear from cybersecurity experts and industry professionals
- Discover how AI is transforming cybersecurity
- Explore cybersecurity and IT career pathways
- Learn about real-world approaches to network security, firewalls, and data protection
- Connect with cybersecurity professionals, educators, and students
- Gain insight into emerging cyber threats and the future of digital security

SPECIAL INVITATION TO HIGH SCHOOLS & EDUCATORS

Bring your students and explore the world of cybersecurity!

High school students and educators are invited to experience this exciting opportunity **to learn from industry leaders, explore cybersecurity careers, and discover pathways to higher education and in-demand technology fields.**

Whether you're curious about a future in cybersecurity or preparing students for careers in technology, the Cybersecurity Symposium offers an opportunity to **learn, connect, and get inspired.**
